

Society for Hematopathology

Proposal for 2023 Society for Hematopathology Workshop

Please submit proposal by August 15, 2021 to
info@society-for-hematopathology.org

- Name of Organizer(s), institution
- Topic with brief description of goals and objectives
- Details concerning nature of cases to be requested
- Nature of materials to be requested (glass slides, images, other)
- Proposed didactic speakers/topics (speaker names can be provided at a later date, subject to approval by the SH Executive Committee)
- Proposed review panel members (for approval by the SH Executive Committee, panel should include EAHP representation)
- Previous participation or experience in meeting planning at the institutional, national or international level
- Description of institutional support for the organizers to successfully plan and implement such a meeting
(Note: administrative support to be provided by the organizers includes design of an initial brochure, all scientific communications with case submitters, receipt and organization of slides, and other similar activities; administrative support which is not directly related to the scientific/case-related matters is provided by the SH)
- Proposed nature of resultant publication
(The Workshop Panel will prepare a series of articles summarizing the discussions and conclusions of the Workshop. Invited speakers and/or review panel members will be asked to submit manuscripts)
- Other information Society should consider in evaluating proposal

Please see a list of past and future SH and EAHP workshops.

EAHP 2010	Uppsala, Sweden	BM Symposium: From molecular and histopathological bone marrow studies to therapy	BM Symposium: Unusual acute leukemias, Transformation of MPN and MDS, Myeloid sarcomas and other cases.	Lymphoma Symposium: Frontiers in diagnosing lymphoma – early lesions, molecular pathogenesis and targeted therapy	Lymphoma Workshop: Early lesions in lymphoid neoplasia
SH 2011	Los Angeles, CA	Cutaneous lymphomas and their mimics			
EAHP 2021	Lisbon, Portugal	BM Symposium: Reactive and neoplastic T-cell proliferations in the bone marrow	BM Symposium: Aggressive mature T/NK cell lymphomas, T-cell prolymphocytic leukaemia and other T-cell proliferations and bone marrow failure.	Lymphoma Symposium: Peripheral T- and NK-cell lymphomas and their mimics; taking a step forward	Lymphoma Workshop: Peripheral T- and NK-cell lymphomas and their mimics
SH 2013	Houston, TX	Progress in Acute Myeloid Leukemia, Myelodysplastic Syndromes and Acute Lymphoblastic Leukemia: Classification and Molecular Pathogenesis			

EAHP 2014	Istanbul, Turkey	BM Symposium: Small B-cell lymphoid neoplasms in bone marrow: diagnostic advances.	BM Symposium: Diagnostic difficulties in CLL, bone marrow manifestations of LPL, MZL, SRPL, HCL-v and HCL, small B-cell lymphomas in bone marrow, multiclonality and composite lymphomas	Lymphoma Symposium: Redefining the spectrum of small B-cell lymphomas in light of current technology	Lymphoma Workshop: Small B-cell lymphoma
SH 2015	Long Beach, CA	Immunodeficiency and Dysregulations			
EAHP 2016	Basel, Switzerland	BM Symposium: Aggressive Malignancies of the 'Other Cells' of the bone marrow: Histiocytes, Dendritic Cells and Mast Cells	BM Symposium: Aggressive Malignancies of the 'Other Cells' of the bone marrow: Histiocytes, Dendritic Cells and Mast Cells	Lymphoma Symposium: Aggressive lymphoid and accessory/histiocytic cell neoplasms	Lymphoma Workshop: Aggressive lymphoid and accessory/histiocytic cell neoplasms
SH 2017	Chicago, IL	Molecular genetics of hematopoietic neoplasms			
EAHP 2018	Edinburgh, Scotland	BM Symposium: ALL and	BM Symposium: ALL and	Lymphoma Symposium: The impact of intrinsic and	Lymphoma Workshop: Extranodal lymphoproliferations,

		reactive lesions, T-NHL and Hodgkin lymphoma, aggressive B-NHL	reactive lesions, T-NHL and Hodgkin lymphoma, aggressive B-NHL	extrinsic factors in site-specific lymphoproliferations.	including immune privileged sites
SH 2019	Phoenix, AZ	Addressing the Challenges of Eosinophilia and Mastocytosis			
EAHP 2020	Dubrovnik, Croatia (FORMAT CHANGED TO VIRTUAL)	BM Symposium: Overlaps, borderlines and mimics	BM Symposium: Pediatric myeloid neoplasms and related diseases, AML of ambiguous lineage, other cases of acute leukemia hard to classify, myelofibrotic myeloid neoplasms	Lymphoma Symposium: Overlaps, borderlines and mimics: Understanding lymphoma biology is key to pathological classification and treatment.	Lymphoma Workshop: Classic Hodgkin lymphoma and its mimics, spectrum of mediastinal LBCL, unusual patterns of NLPHL, the spectrum of aggressive B cell lymphomas other than DLBCL, lymphomas with plasmablastic morphology
SH 2021	Philadelphia, PA	Transformation & Transdifferentiation in Lymphoid Malignancies
